FLEEXI

SMART FLEET. SMARTER DECISIONS.

ONE PLATFORM FOR EVERY VEHICLE

- GPS Tracking
- Fuel Monitoring
- Maintenance Alerts
- Driver Safety
- Real-Time Alerts

Turn Your Fleet Into A Profit Center

FLEEXI

One Platform. Complete Control. Total Visibility.

Fleexi is a next gen smart, IoT-powered fleet management platform that combines advanced vehicle hardware with powerful cloud software to help you cut costs, improve safety, and maximize asset utilization all from a single dashboard.

Fleexi replaces manual processes, spreadsheets, and disconnected systems with a **single centralized platform** for fleet managers, drivers, technicians, finance teams, and executives.

Integrated Hardware + Software Solution

- ✓ Vehicle-mounted IoT hardware collects real-time data
- ✓ Data transmitted via GPS/Cellular network
- ✓ Centralized Fleexi Cloud processes and stores data
- ✓ Web dashboard & mobile app provide real-time access
- ✓ Alerts, reports, and automation drive decision-making

Why Fleexi?

FLEEXI

Because every minute your fleet is:

- Idle
- Untracked
- Poorly maintained
- Wasting fuel

...it is losing money.

What Makes Fleexi Different

- Fleexi is not just software.
- It is a complete **Hardware + Software** ecosystem designed for real-world fleet operations.
- Installed Once. Works 24×7. Delivers Value Every Day.

Fleexi helps you see everything, control everything, and optimize everything in real time.
